Напомена:

1. Бројеви у загради, поред назива потенцијалног инвеститора, представљају следеће: трећи број означава укупан број локација за које се потенцијални инвеститор пријавио, први број означава број локација на којима је Комисија одлучила да му да могућност да изврши инвестицију, док други број означава број локација на којима потенцијални инвеститор није први на листи.

На листи су за сваку локацију понаособ наведена три потенцијална инвеститора којима ће се сукцесивно пружати шанса да реализују инвестицију. У случају одустајања потенцијалног инвеститора, који је први на листи, прилику за инвестицију ће добити други, односно трећи потенцијални инвеститор са листе.

2. Број поред назива мале хидроелектране представља њену снагу изражену у kW.
